AINSLEY LOFTERS

Parkland, Florida | (954) 448-9523 | ainsleyrlofters@gmail.com | linkedin.com/in/alofters

PROFESSIONAL SUMMARY

Innovative and results-driven information technology (IT) leader with more than two decades of experience across global, multi-site environments. Expertise in implementation of solutions architecture and cybersecurity management. Proven track record of delivering scalable, secure, and business-aligned solutions. Technology professional who is excellent at recognizing opportunities and establishing seamless and cost-effective mission-critical operations.

CORE COMPETENCIES

Network & Enterprise Infrastructure
Solutions Architecture
Cloud Architecture
Digital Transformation
Cybersecurity & PAM (CyberArk)
High-Availability Architecture
Unified Communications
Enterprise Integrations
Disaster Recovery
Vendor Management
IT Service Management (ITSM)
Cloud Infrastructure (AWS)
VoIP & PBX Architecture
Cisco/Avaya/Alcatel/Mitel

PROFESSIONAL EXPERIENCE

Playa Hotels & Resorts | Sunrise, Florida **Aug 2022 – Present**
(acquired by Hyatt in 2025)
Senior Solutions Architect – IT

- Oversees enterprise architecture strategy across global environments including Mexico, Dominican Republic, and Jamaica regions
- Led enterprise-wide IT transition during ownership change of 15 Playa Hotels & Resorts to Hyatt Inclusive Collections, successfully migrating critical infrastructure, systems, and data within an accelerated 1-year timeline and uninterrupted operations
- Architected and deployed enterprise CyberArk Privileged Access Management across international environments, strengthening privileged account security, reducing organizational risk exposure, and enabling SOC 2 compliance for critical enterprise systems
- Leads the architecture and delivery of scalable infrastructure, cloud, cybersecurity, and unified communications solutions across global environments, driving performance optimization, strengthening security posture, and enabling business growth
- Leads end-to-end delivery of enterprise solutions from architecture design and proof of concept through testing, training, and large-scale deployment, ensuring successful execution, minimizing operational disruption, and accelerating time-to-value
- Ensures high availability, performance optimization, and SOC 2 compliance
- Partners with executive leadership and vendors to modernize platforms

Brookfield Hospitality | Plantation, Florida **Apr 2012 – Aug 2022**
Enterprise Communications Manager – IT (Jan 2019 – Aug 2022)
Telecommunications Engineer – IT (Apr 2012 – Jan 2019)

- Directed enterprise infrastructure and systems transition during the ownership change of Atlantis Hotel & Casino, delivering full technology migration in under 90 days while maintaining uninterrupted operations across guest services, resort systems, and corporate infrastructure

AINSLEY LOFTERS

Parkland, Florida | (954) 448-9523 | ainsleyrlofters@gmail.com | linkedin.com/in/alofters

PROFESSIONAL EXPERIENCE (continued)

- Designed and delivered scalable, high-availability technology solutions across unified communications, cloud infrastructure, and cybersecurity to support business growth and operational resilience
- Directed the architecture and optimization of enterprise communication platforms, including Cisco and Avaya PBX systems supporting 8,000+ phone endpoints and a 1,000+ device radio network across U.S. and Bahamas operations, ensuring high availability, minimizing downtime, and enabling real-time coordination for mission-critical operations including security, guest services, and emergency response
- Directed the administration and optimization of SIP, PRI, and VoIP infrastructure and Unified Communications platforms (Microsoft Teams, Zoom, WebEx), enhancing enterprise-wide collaboration, improving system reliability, and global communications
- Directed the management of Motorola radio systems and enterprise audio-visual infrastructure, enabling real-time communication for security, guest services, and operational teams while ensuring high availability across mission-critical environments
- Led cross-regional IT teams and strategic vendor partnerships across U.S. and Bahamas operations, driving service reliability, optimizing operational performance, and ensuring successful delivery of enterprise-wide technology initiatives
- Led the design and implementation of enterprise disaster recovery and business continuity strategies while ensuring SOC 2 compliance, strengthening security posture, minimizing risk exposure, and ensuring resilience across mission-critical global operations
- Managed enterprise telecom systems including PBX, VoIP, and cloud call centers
- Administered Motorola radios, Brocade switches, and mobile device platforms
- Supported UC platforms (Teams, Zoom, WebEx)
- Drove high availability of enterprise systems across U.S. and The Bahamas operations by optimizing infrastructure performance and resilience, minimizing downtime and ensuring uninterrupted support of mission-critical business functions

Kerzner International | Plantation, Florida **Jan 2006 – Apr 2012**
(Atlantis Resort & Casino - acquired by Brookfield Hospitality in 2012)
Field Service Technician – IT (Jan 2006 – Apr 2012)
IT Buyer / Inventory Technician – IT (Jan 2004 – Jan 2006)

- Delivered desktop and server support across enterprise environments, resolving technical issues to ensure system stability and support uninterrupted business operations
- Designed and implemented standardized system imaging processes for large-scale enterprise deployments, improving efficiency, ensuring system consistency, and supporting scalable technology rollouts
- Directed procurement, inventory management, and lifecycle of enterprise IT assets, optimizing cost efficiency, improving asset tracking, and ensuring timely availability of critical resources

EDUCATION & CERTIFICATION

Coursework | Broward College | Fort Lauderdale, Florida
Solution Architect Associate Certification | Amazon Web Services (AWS) | In Progress
